

ABOUT EVERBRIDGE

Everbridge, the world's recognized leader in incident notification systems, merges technology with industry expertise to help millions of people communicate in a crisis, manage operational incidents and connect on a daily basis. The company's notification platform and incident lifecycle communications model makes communicating to many as simple and effective as communicating to one. Organizations in more than 100 countries—including the State of Connecticut, Salesforce.com, AirTran Airways, the American Red Cross, and Virginia Tech—rely on Everbridge for their emergency notification and day-to-day communication needs.

- Neighborhood Alerts

Messages can be sent to residents on any communication path desired:

- Cell/Home phone
- Email
- Text messaging
- Fax
- Pager, PDA and more

A Message from the Medina County EMA Director

Christina Fozio

"The jurisdictions within Medina County are working together to protect our citizens from danger that can threaten our communities. The ability to reach as many residents as possible using multiple tools during an emergency to warn them and provide guidance is our goal as community partners; Everbridge Aware for Citizen Alerts is one of those tools," said Christina Fozio, Director of the Medina County Emergency Management Agency. "The Everbridge emergency notification system is another way to be able to assist residents on how to react accurately and efficiently in a natural disaster or other crisis."
